

Module 3 ~ Invasive Plant Student Video Challenge
Storyboard Template

School:	Teacher:	Date:
Title:	Team:	

Tips for Storyboard Success: Once your team decides on a basic idea for your story, you'll need to make decisions about how your film will look and how long each scene will last. Use the storyboard template below to sketch out, describe, and organize your scenes. Each scene should represent an important 'moment' in your film, and provide information about characters, backgrounds, camera placement, and other important things. To watch instructional videos about storyboard making, visit our YouTube channel: www.youtube.com/user/UFInvasivePlantsEDU
